Raising Awareness Workshops

Autumn / Winter 2008

Accessible Information – Raising Awareness

Course content included in Raising Awareness workshops:

- ✓ Requirements of the Disability Discrimination Act in relation to accessible information
- ✓ Models of disability, use of language, conduct
- ✓ Barriers disabled people face in accessing information (case studies or examples relating to the health sector)
- ✓ Benefits for staff, patients and the general public
- ✓ Producing information, including e-communication, in a variety of different formats

Full day courses provide an opportunity for interactive workshops which can be tailored:

- ✓ Developing your action plan - making information more accessible in your workplace
- ✓ Including accessible information in broader policies or strategies
- ✓ Designing and delivering accessible presentations
- ✓ E-communication: accessibility in practice
